Dec 13 – First iron poured on target start-up date.

Mouat’s management of this project made the difference in bringing it in on time. Start up went remarkably smooth and we were running 20 hours a day within four months. It has been a very good experience for us.”

Keith Teachout, Senior Staff Engineer
Asama Coldwater Manufacturing

Mouat is committed to each customer’s long-term objectives and profitability. Our innovative use of both emerging and time-tested technologies coupled with our focus on personalized service enable us to help you successfully achieve your business goals.
